

GHG ASC Work Boot Program and Eligibility

1. Employees with job titles listed below are eligible for work boot reimbursement.
2. Employees are eligible for reimbursement for one pair of work boots every other year. You will be reimbursed after you report to your duty station.
3. The maximum reimbursement for work boots is \$200.00. It is expected that employees will purchase a durable boot that will last two years.
4. Employee will be reimbursed after reporting to their assigned work site location.
5. Boots will be evaluated by the GHG manager or his designated representative for suitability to perform the work assigned. Where applicable, boots must meet the ASTM standard for protective toe to be eligible for reimbursement.
6. Replacement of damaged or deteriorated boots: Employees will be eligible for replacement boots with their manager's verification and approval. Their manager is required to document each approval.
